

# Products & Services Overview

The Lab-Reactor is our core product, in all its customized varieties:

- From 100ml to 20 litres
- Single wall, jacketed and vacuum jacketed
- Flat flange covers, with all kind of connections
- Wide range of accessories like stirrers, temperature probes, stirrer bearings, coupling systems, etc.
- Reactor holders and reactor frame systems

We are specialized on special and custom-made products:

- According to drawings or sketches
- Individual single production or OEM-series
- vacuuming
- brown glass manufacturing
- sandblasting, etching
- graduating
- precision grinding and polishing

We perform glass repairs (borosilicate glass only) when they seem both reasonable and feasible.

We also offer various coatings that protect against shattering and leaking in case of broken glassware:

- Halar
- PMA
- PFA
- PUR

Our laboratory glassware catalogue features the current standard products and equipment (trade goods and products made in-house). And, if you don't see what you need here, we can get it for you.

As we are an official dealer of DWK we can offer you the whole range of DURAN LABORATORY GLASS at attractive prices.
